Schiavello designers Oliver Field and Helen Kontouris have exhibited in the Italian city of Milan at the Melbourne Fringe Designing Nhow exhibition of professional, contemporary furniture / lighting / object designers who participated in Melbourne Fringe Festival's annual exhibition, Fringe Furniture.

The Designing Nhow exhibition, held during Salone del Mobile from 16-21 April, 2008 at Hotel Nhow, showcased contemporary objects, furniture and lighting of a high artistic and design calibre by both established and emerging Melbourne design entities.

It also sought to strengthen ties between the sister cities and create cultural, artistic and business networks for the artists from Melbourne with the Milan heavy-weights.

Kontouris' 101 Chair and La La stools alongside Field's Hedge were featured at the exhibition.

Designing Nhow was funded by the City of Melbourne and Arts Victoria's International Program. Other designers included:
