07 Artevista

www.designhub.com.au
info@designhub.com.au

designer Mark Greenaway
manufacturer Design hub
 Add versatility to Design Hub's Artevista Sculptural Panels with Metaganic real metal finishes in natural elements bronze, copper, aluminium, rust, brass, graphite, nickel and stainless steel. Metaganic gives the impression of solid cast panels that are suitable for indoor and outdoor use. You can alternatively apply Environmental Choice Products from Resene paint finishes which, combined with Artevista's low VOC, support the demand for sustainable products. Visit the Design Hub website to view Artevista's new collection.

08 Capri Travertine

www.ecooutdoor.com.au
info@ecooutdoor.com.au

manufacturer Eco Outdoor
 Eco Outdoor's range of Travertine and Limestone is bound to make a statement to architecture and design enthusiasts alike. It includes a number of limestone and travertine varieties that have been tumbled to give a distressed, aged appearance. This provincial flooring range offers a real sense of permanency and timeless appeal and with subtle colour movement and tonal change, like all natural stone, they just get better with age.

09 Toro Collection

www.schiavello.com/toro
info@schiavello.com

designer Ivan Woods
manufacturer Schiavello
 Derived from the Spanish word for bull, the Toro collection is defined by a strong, clean profile that emulates the poised stance of a fighting bull. Featuring various seating and table elements, Toro's taut silhouette with sharp, angular lines is echoed throughout the range, giving the Toro collection its distinct personality. Crafted from solid American oak, Toro presents a rich, organic aesthetic with ageless appeal, suitable for commercial, hospitality and domestic environments. Finishes include clear matt varnish or painted in black, white or red.
